Discussion (What did you learn):

Verify Builds

- Follow the Piazza procedure on submission
 - Verify your submission compiles and works at the changelist number.
- Verify that only MINIMUM files are submitted
 - No – Generated files
 - *.pdb, *.suo, *.sdf, *.user, *.obj, *.exe, *.log, *.pdb, *.db, *.user
 - Anything that is generated by the compiler should not be included
 - No – Generated directories
 - /Debug, /Release, /Log, /ipch, /.vs
- Typical files project files that are required
 - *.sln, *.csproj, *.cs,
 - App.config, AssemblyInfo.cs, CleanMe.bat
 - Resources Directory:
 - *.tga, *.dll, *.wav, *.gls, *.azul

Standard Rules

Submit multiple times to Perforce

- Submit your work as you go to perforce several times (at least 5)
 - As soon as you get something working, submit to perforce
 - Have reasonable check-in comments
 - Points will be deducted if minimum is not reached

Submission Report

- Fill out the submission Report
 - No report, no grade

Code and project needs to compile and run

- Make sure that your program compiles and runs
 - Warning level 4
 - NO Warnings or ERRORS
 - Your code should be squeaky clean.
 - Code needs to work “as-is”.
 - No modifications to files or deleting files necessary to compile or run.
 - All your code must compile from perforce with no modifications.
 - Otherwise it's a 0, no exceptions

Project needs to run to completion

- If it crashes for any reason...
 - It will not be graded and you get a 0

No Containers

- Containers (No automatic containers or arrays)
- Template or generic parameters
- No arrays
 - You need to do this the old fashion way - **YOU EARNED IT**

Leave Project Settings

- Do NOT change the project or warning level
 - Any changing of level or suppression of warnings is an integrity issue

Simple C#

- No .Net
- We are using the basics
 - Types:
 - Class, Structs, intrinsic types (int, float, bool, etc...)
 - NO arrays allowed!
 - Basics language features
 - Inheritance, methods, abstract, virtual, etc...

No Debug code or files disabled

- Make sure the program has only active code
 - If you added debug code or commented out code,
 - please return to code to active state or remove it

Adding files to this project

- Make sure you add the files in the appropriate sub-directories
- Make sure any new files are successfully integrated into the project
- Make sure your new files are submitted to Perforce

Due Dates

- See Piazza for due date and time
- Submit program perforce in your student directory assignment supplied.
- Fill out your this **Submission Report** and commit to perforce
 - **ONLY** use Adobe Reader to fill out form, all others will be rejected.
 - Fill out the form and discussion for full credit.

Goals

- Learn
 - Understand the class environment
 - Practice using C# language
 - Practice using Microsoft IDE
 - Practice using Perforce
 - Make sure your Game is working

Assignments

Grading:

- Game Engine compiling and running
 - Verify that your Space Invaders graphically is working...
 - Demonstrate you have all the tools and setup working
 - Video capture screen to prove its working (as is... no development)
 - 30 sec YouTube video capture
 - Use Zoom recording
 - High resolution
 - Good sound quality
 - Show on the capture... it compiling and then running
 - Only capture your editor and game window...
 - NOT your whole desktop
 - Recording tools
 - OBS or other tools (need to have a fast framerate recording)
 - Create a thread on piazza for other options
- Test your recording device and recording volume
 - Record the game playing for 30 seconds
 - Say your Name
 - *"this is Sprint 0 SE456 "*
 - *And tell me the best movie you watched in the last 3 month*
 - All I'm checking is the AUDIO is loud enough and clear.
- ONLY way to lose points
 - You didn't record 20-30 sec
 - You recorded anything beyond 1 min.
 - Your audio volume was too quiet (test it and verify it)
 - Your YouTube link needs to work "As-IS" with no login
 - Don't make it private... make it unlisted
 - You check-in too many files or temporary files
 - Make sure you run CleanMe.bat before perforce submission

General guidelines:

- Post on Piazza questions and clarifications

Development

- Use the project in Sprint0
- Do not copy temporary files or submit extra data
- Make sure you run CleanMe.bat before adding to performe

Submission

- Submit your SprintX directory into performe:
 - /student/<yourname>/SprintX/...
 - You need to submit a complete C# project
 - Solution, project and C# files (whatever it takes to build the project)
 - Do not submit anything that is auto generated
 - Run the supplied CleanMe.bat before submission
 - Should cleanup files
- YouTube recording
 - Record approximately 20-30 seconds
 - Add your voice commentary
 - Demo
 - Game Engine Demo – show the game compiling and running
 - With commentary
- Fill out the Submission report and submit that pdf to your student directory

Validation

Simple checklist to make sure that everything is submitted correctly

- Is the project compiling and running without any errors or warnings?
- Does the project runs **ALL** without crashing?
- Is the submission report filled in and submitted to performe?
- Follow the verification process for performe
 - Is all the code there and compiles “as-is”?
 - No extra files

Hints

Most assignments will have hints in a section like this.

- Make sure your installed all the tools

Troubleshooting

- Easy sprint
 - Ask for clarification on piazza
